

Assessments

ACAP - Alabama Comprehensive Assessment Program

The ACAP Summative assessment will be administered at Collins Intermediate to grades 4-6, once a year, in the spring, beginning in 2020. The assessment will be administered 100% online, with the exception of a documented need for paper assessments (IEP, 504 plan, or I-ELP). The content areas to be assessed are math and English/language arts, to include a writing section. In addition, grades 4,6, and 8 will be administered an assessment in science.

STAR Assessments

STAR Reading is a customized reading assessment given to students in grades 4 through 6. Teachers use STAR Reading reports to determine the reading level of each student and to measure growth.

STAR Math is a customized math assessment given to students in grades 4 through 6. Teachers use reports from STAR Math to determine students' math skill levels and measure progress.

Scantron Assessments

Series is a computer-adaptive, online assessment that offers educators an efficient, standards-based method to immediately diagnose student needs and inform placement and instructional strategy decision

Scantron Reading is a standards-based reading assessment given to students in grades 4 through 6. Teachers use Scantron Reading reports to determine to measure growth.

Scantron Math is a standards-based math assessment given to students in grades 4 through 6. Teachers use reports from Scantron Math to measure progress.
